**Why Tolerate Catarrh?**

You have noticed, no doubt, that any cold aggravates nasal catarrh, and the flow of mucous amazes you that such objectionable matter could find lodgment in your head. To ignore this catarrh when the cold subsides is wrong because it continues to slowly injure the delicate linings of the nasal passages and clog them up.

To correct catarrh, cleanse the nostrils frequently with a solution of warm water and salt, insert vaseline on retiring, and take a spoonful of Scott's Emulsion after meals for one month. Scott's acts through the blood to feed the tissues, and contains soothing glycerine to check the inflammation and heal the sensitive membranes.

Scott's is pleasant to take.

It is expected that the matter of having a patrolman on duty daily in the business section will come up at this week's meeting of the borough officials.

The assessors on Monday completed their listings for the reception of tax lists. The lists that were not handed in will be subject to an increase of 10 per cent.

It is understood that the licensed liquor dealers in Danielson have agreed to open their places of business until 6 a. m.; heretofore in license years the places have been opened at 8 a. m.

**COAL WAS STEAMING.**

So Over 60 Tons at High School Were Put Outdoors to Cool.

Workers were engaged Monday in removing more than 60 tons of bituminous coal from the bunkers at the high school building and placing it outside the structure. Saturday Janitor Hiram Burton entered the building and found much gas and some smoke. His investigation developed the fact that the coal was "steaming" probably as the result of spontaneous combustion. The matter was at once reported to town officials and some of the coal was removed. Sunday a close watch was kept on the situation and it was finally decided to put the coal outside.

The work was underway Monday, when gas continued to generate within the mass of coal, which was when it was placed within the building and heat could be felt by a person standing close to the coal.

In past years, as a general rule, anthracite coal has been used at the building, but after some experiments it was decided to try bituminous coal this year as an economical measure.

**STOLE WAUREGAN TIRES.**

Automobile Burglars Get Away with \$500 Worth from Milligan's Garage—\$20 in Money Taken.

Burglars got away with approximately \$500 worth of tires and other automobile accessories when they broke into the Wauregan garage, Arthur Milligan proprietor, about midnight Sunday. The break was not discovered until Monday morning. The burglars came in an automobile, which was seen about midnight near the garage by John Eaton, father-in-law of the proprietor, but he paid no attention to the matter, thinking that Mr. Milligan, who had been out with his car, had returned earlier in the night, had come in.

The burglars, who were evidently familiar with the premises, got into the garage by forcing a window. They then opened the main doorway, backed their machine up and loaded it with whatever they found that was to their liking and they cleaned up. They took away 14 or 15 tires of various grades and sizes, chiefly Empire, Goodrich and Paraflex makes, more than a dozen inner tubes and three or four dozen spark plugs, these worth from 35 cents to \$1 each.

They also ransacked Mr. Milligan's desk, getting about \$20 in money. They also opened mail and took out checks as well as taking away some blank checks of the Windham County National bank. The letters they opened were ready to mail.

The car in which the burglars came was equipped on its rear wheels with Goodrich safety treads and on its forward wheels with U. S. nubty treads. This fact was determined by the marks left in the ground where the machine was driven up to the garage. When the burglars left they headed their machine toward Central Village, but before reaching that place they turned around and headed north, coming toward Danielson, through which they may have passed.

The burglars left behind a horse blanket, which they may have been using for a robe, this having a brown back and red, white and black stripes on the other side.

Among the other things taken in addition to the tires, tubes and spark plugs was a luminous faced clock, a hand phone horn and other automobile equipment.

The garage is situated on the Danielson-Central Village highway, east of the village of Wauregan and is in a place where the burglars were in less danger of discovery, as fortune favored them, than would be the case at a garage within a town. There are circumstances to indicate that the burglars knew their ground and it is probable were quite familiar with the premises.

Mr. Milligan was engaged Monday in an endeavor to get trace of his property.

A regular meeting of the selectmen for the transaction of routine business was held Monday.

**Temperature Monday 63 Degrees.**

Monday was a balmy November day, with thermometers about town registering as high as 63 degrees. Game wardens are alert to keep hunters out of the Big Pomfret game preserve this fall.

**Heavy Freight on New Haven Road.**

Putnam, as one of the principal freight transfer points on the New Haven system, is handling its share of the heavy amount of freight the road is now moving.

The Girls' basketball team of Putnam High school is developing rapidly in knowledge of the game and will engage in contests during the late fall and winter season.

Early work incident to the campaign that will precede the election next month of city officials for the next two years is being done in different wards of the city.

**To Assist at New York Polls Today.**

Having completed a week of strenuous campaigning in the interests of equal rights for the negro in New York state, Mrs. W. J. Bartlett of this city will assist as a watcher at the polls at Yorkville, in New York's special election today.

During the week Mrs. Bartlett has addressed a number of large meetings and has had an interesting experience. She has labored in the territory about Utica and has found a great deal of enthusiasm for the cause. Mrs. Bartlett has been so busy with her work that she has confined her writing to friends here to brief notes.

**GRANT 25 LICENSES.**

Five of Those Given Out by Commissioners Are to Druggists—No Opposition.

At their session here in the offices of the clerk of the superior court Monday, County Commissioners John A. Dady, E. H. Cortis and Urgele LaFrance granted 20 liquor licenses and five druggists' licenses. There were no remonstrances or other objection filed against any of the applicants, all of whom are at present engaged in the business which they are applying for.

Putnam has never voted no-license since the law allowing only one license to each 500 of the population went into effect several years ago. The town is allowed to grant licenses in excess of the number that would be permitted by the present statute, but this number cannot be increased and any license that might be allowed to lapse for any cause will not be renewed until the number in the city is reduced below the one to 500 basis.

The druggists granted licenses Monday were Henry L. Burt, George E. ing toward Danielson, through which they may have passed.

The burglars left behind a horse blanket, which they may have been using for a robe, this having a brown back and red, white and black stripes on the other side.

Among the other things taken in addition to the tires, tubes and spark plugs was a luminous faced clock, a hand phone horn and other automobile equipment.

The garage is situated on the Danielson-Central Village highway, east of the village of Wauregan and is in a place where the burglars were in less danger of discovery, as fortune favored them, than would be the case at a garage within a town. There are circumstances to indicate that the burglars knew their ground and it is probable were quite familiar with the premises.

Mr. Milligan was engaged Monday in an endeavor to get trace of his property.
